

# **Energetics Technology Ltd at DSEI 2019 (September 10<sup>th</sup>-13<sup>th</sup> / London)**

Discover what the various Etienne Lacroix Group entities have to offer at the DSEI show to be held in London in September and learn our broad range of advanced pyrotechnic applications dedicated to defense and security, platform self-protection, blast protection and much more....

## **About DSEI 2019**

"DSEI is the world leading event that connects governments, national armed forces, industry thought leaders and the global defence & security supply chain on an unrivalled scale."

Organized around 5 key domains (Aerospace, Land, Naval, Security&Joint), DSEI is a major opportunity to discover the latest equipment and systems dedicated to defense and security in the European Zone.

## **Meet us at DSEI 2019 - Stand N9-383**

**...and learn about the Etienne Lacroix Group entities and activities.**

From September 10-13 at the Excel Exhibition Centre in London, DSEI will provide us with the opportunity to reveal more about the diversity of our businesses and expertise: self-protection, blast protection solutions and anti-mine boots, law enforcement products, packaging solutions for the armed forces, etc.

### **Blast protection solutions with ENERGETICS Technology Ltd**

Acquired at the end of 2018 by the Etienne Lacroix Group, Energetics Technology Ltd, designs, tests and produces anti-blast protection solutions, as well as blast resistant containers and reinforced transport solutions for police, armed forces, crisis response and demining teams.

For DSEI 2019, Energetics Technology Ltd will be specially showcasing its blast resistant containers (including containers and bins for luggage destruction widely used in airports) as well as its anti-blast panels made of an exceptional Sabre Mat™ composite material.

## **Packaging and protective carrying cases designed for the Armed Forces with CIRRA Packaging**

CIRRA Packaging imports and distributes waterproof protective cases, small cases, flightcases as well cases suited to every activity sector, among which are Defense and Special Forces.

Its know-how in digital cutting and foam machining allows us to offer complete protection solutions for weapons transport and/or storage cases, drones, radio communication equipment, highly expensive equipment, etc.

Among our custom designs in the defense and security sector to be showcased at DSEI, cases such as the PELI waterproof suitcase for storage of soldiers' HK 416 rifles, the PELI Storm small case to store military walkie talkies and transport cases for the various types of drones are of note.

CIRRA has also custom designed the interior of a SKB transport case for Thales' Mini Spy Ranger drone dedicated to French Army light vehicles.

## **Pyrotechnic solutions dedicated to self-protection with LACROIX Défense**

LACROIX provides the Armed Forces in France and around the world with a full range of systems and products dedicated to platform self-protection and to training in the fields of aeronautics, land and naval.

During DSEI 2019, LACROIX will be showcasing in particular:

- its new air force training systems: Manpads\* Simulator (SMOKEY SAM™), electronic training countermeasures, threat emulator (new SIDEMIR), etc.
- its latest countermeasures solutions using state-of-the-art technologies and especially our specific range for the A400M
- its Galix AOS self-protection suite to protect current and future vehicles from enemy threats (in visible or invisible IR domain)
